EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert M. Barrett on 02/16/06.

The application has been amended as follows:

Claims 7, 8, 10-12, 23 and 25-29 are cancelled.

Claim 14 has been amended to:

-- "A method of enhancing an individual's performance comprising the steps of:
providing a chewing gum including an amount of caffeine that is designed to be adsorbed through the oral mucosa of the individual;
chewing the chewing gum to thereby causing the caffeine to release into the saliva of the individual;
chewing the chewing gum ten minute or less before the performance to create a saliva content of caffeine from about 15 ppm to about 440 ppm; and
continuing to chew the chewing gum to force absorbing the saliva content of caffeine through the oral mucosa and into the systemic system of the individual." --

The following is an examiner's statement of reasons for allowance:

The instant application is deemed to be non-obvious over Gudas (WO 98/23165). Gudas does not teach a method for enhancing an individual's performance by chewing the chewing gum within ten minutes before the performance to create a caffeine saliva content of about 15 ppm to about 440 ppm to create absorption of caffeine through the oral mucosa and into the systemic system of the individual.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 14-18 are allowed.
